Aloha,

Please do not "lock in" the official pest threats of almost 20 years ago. There are always more coming our way it seems and we have lost food security trees now that are also one of the most iconic and beautiful visitors like. North Shore praying for tourists now even.

Many people will need everything and anything that grows well here if (when...?) we have hurricane, tsunami, flooding, war even, and/or shipping too expensive or incapacitated. Even our feral chickens will be appreciated when anything disastrous comes to the islands ! I was sick and missed the 28th meeting. Hope it is not too late for your consideration

Mahalo
